

Systems and Routines

One of the hallmarks of great classrooms and schools is a culture of excellence, which students embody in everything they do. Whether students are raising hands, passing papers, annotating texts, or participating in a discussion, they know how to do it, and they do it well. This excellence is often built on a foundation of well-taught procedures and systems that, with repetition and consistency, become routines – actions that students do automatically and with little-to-no teacher prompting.

Based on last year's strong response, we are again offering a one day workshop on *Systems and Routines*. Join facilitators Doug Lemov, Erica Woolway, Darryl Williams, and Hilary Lewis to prepare to deliver excellent training to your staff on *System and Routines*. You'll leave the workshop equipped to train teachers in the techniques that champion teachers use to design, install, and maintain *Systems and Routines*.

YOU WILL GAIN:

- An understanding and vision for rolling out the academic, behavioral, and cultural systems that drive student engagement and achievement across classrooms
- Insights on the effective application of *Systems and Routine* techniques by champion teachers and leaders to create school wide systems that maximize student engagement and achievement
- An understanding of the importance of practicing new techniques with teachers and a framework for how to effectively practice and rollout *Systems and Routines*
- Practice activities that will strengthen teachers' capacity to apply effective *Systems and Routines* techniques in their classrooms to create strong classroom cultures
- The opportunity to plan how you will implement these techniques in your school's professional development program

WE WILL ANALYZE AND PRACTICE:

- *Teach Like a Champion 2.0* techniques that enable teachers to Design and Install, Transfer Ownership, and Maintain *Systems and Routines*
- Effective modeling and coaching during practice in order to help get teachers to mastery of the techniques

YOU WILL RECEIVE:

Attendees will leave prepared with the video clips discussed at the workshop, as well as additional training materials, including:

- Our *Systems and Routines* Plug and Play—our ready-to-use training—to use with your staff that includes a Power Point with embedded video and participant handouts
- Full description of all techniques, methods, and practice activities covered in the training
- PowerPoint used in the workshop
- Talking points for each video clip
- Additional clips with complete talking points
- Lesson plans for school-wide and individual PD activities to help leaders train teachers
- Aligned coaching tools and other materials to maximize teacher development

WHO SHOULD ATTEND:

Our workshops are a “Train the Trainer” model. We prepare instructional leaders and school leadership teams to deliver excellent training on *Teach Like a Champion 2.0* techniques. Schools typically send a team of two to five leaders, deans and/or teachers in order to have several key team members responsible for turnkeying the work back at their campuses.
